SILVER BABY GIRL CHART & GOLD BABY BOY CHART
 AND FREE GRAPH PAPER PDF AVAILABLE AT
 WWW.CAROUSELCHARTS.COM.

JEWEL LETTERS

BIRTH ANNOUNCEMENTS • 2005v1

Designed for the Silver Baby Girl Jewel birth announcement and the Gold Baby Boy Jewel birth announcement and free .pdf download from www.CarouselCharts.com.

USING THE FONTS:

1. Download this PDF and free graph paper .pdf from www. CarouselCharts.com.
2. Decide either to spell out entire baby name, first name only, or just use one line for initials. Weight, height, month, day optional.
3. Using larger font letters from the top of this example, create name on graph paper printout. Do not exceed 50 squares for any one line of baby name. Room allowed for 2 lines of baby name using larger fonts. Allow one block width between letters and 2 or 3 block widths between words.

Note: Several letter variations are given for optimal spacing between characters. Distinctive one-square tall height for some characters are intentional, but you may choose to expand shorter letter forms for consistent x-heights.

4. Center name by cutting each graph paper word line separate from other word lines and folding all to their unique half-way point. Line up paper strips by center fold line and tape lines together.

5. Copy centered word block to the Silver Girl Jewel or Gold Boy Jewel birth announcement, being careful to note example text blocks as guide for space above, below and between lines..

6. Repeat steps above for weight and height with appropriate fonts. Full months are given here, but 3-character abbreviations for months is recommended for both Silver and Gold charts. USA standard units of measure can be changed to international metric weight and height, according to location of child's birth or family preference.
