Christ Centered Christmas

CHRIST CHILD CRECHE ORNAMENT • 2004v3

A simple figure represents a focus that often is lost in "modern" celebrations of the holiday. Chosen intentionally as the first of the Christmas Creche ornaments, it is ideal for a tree or a unique location where children can see and talk about the meaning of the first and only lasting gift from the original Christmas. This ornament is dedicated to my first child, who came in the winter and blessed my life ever since. It is she who convinced me to create and offer my art in patterns and charts for her cross stitch needle.
